How to measure and pick the right size

Chest Measurement

Measure the circumference of your chest below the armpit, measure the widest point.

example : if your chest measures 42 inches then the most suitable size would be L (large) .

Guidance

Some garments will have a slim fit option and it may be best to pick one size up if you prefer a loose fit.

Every garment image will have a label showing the fit of the garment. Regular, Relaxed, Slim or Skinny fit.

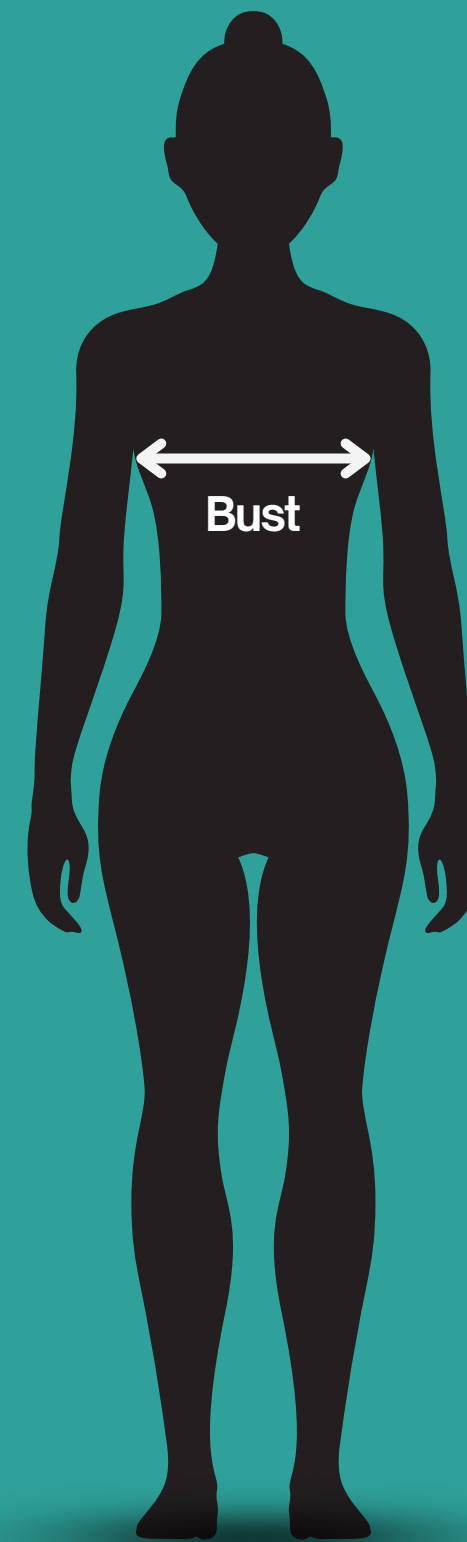

Please take this into account when ordering your size.
